*Often "String Quartets" are simply one person who contracts out other musicians. It is critical for the same musicians to perform together on a regular basis in order to blend and follow each other.

**Most String Quartets are "spare time" quartets and play less than 10 events a year. Don't be afraid to ask.

***Be sure to check if the musicians in the quartet are professional, meaning that they perform professionally, not simply "hobbyists"

PLEASE LET US KNOW HOW WE COMPARED WITH OTHER QUARTETS
